City Government & Municipal WordPress Theme

Gimont is a City Government & Municipal WordPress Theme dedicated to municipalities websites, government departments or agencies, local government sites and town or city portals. It is flexible enough to support you who are government departments and agencies to introduce your policies, work, history of foundation and development, post your important events and receive issues to solve from the public.

Therefore, the theme is the perfect choice for you to reach a wider audience. The theme is easy to make changes, update news as well as allowing the audience to report issues on the fly without being a technology wizard or having experience with coding.
